

ELAW Summer Non-Legal Internships

Get real world experience by developing an internship that matches your academic interests and helps further ELAW's mission. Internships are tailored to each student's skills and goals.

Past intern projects have included:

- Document translation;
- Research;
- Event planning;
- Office support; and
- Community outreach.

To apply for an ELAW Summer Internship, please send a cover letter and resume to Krista Shennum.

Applications will be accepted on a rolling basis, but should be submitted by April 1.

Successful applicants generally possess excellent research and writing skills and a strong interest in protecting the environment. Proficiency in a language other than English is preferred, but not required. ELAW actively seeks applicants with diverse backgrounds.

We are unable to provide funding for interns. We encourage interested applicants to look for alternative sources of funding, including their educational institutions.
